|--|---|--|---|
|    | 4 stars freezing compartment for better food preservation.  |   | A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.  |
|    | Smeg Active Ion system neutralizes bacteria, mold spores and all impurities responsible for unpleasant odours and food spoilage. Thanks to the generation of ions released inside the refrigerator, a natural air purification process is activated, allowing even longer lasting food storage. |   | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.   |
|    | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.  |   | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.  |
|    | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.   |   | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.   |
|   | Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.   |  | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |
|  | Air plus: keeps food fresher for longer.  |  |   |
