Outdoor Refrigerator

To prevent possible ignition, designed ventilation is required.

It is recommended to install the appliance in a sheltered area, avoiding direct contact with extreme weather. Avoid placing the appliance in direct sunlight or near the stove, range top, radiators and similar heat sources. The appliance is designed for a freestanding setting up.

Appliance Dimensions

Height when adjustable feet have been screwed in as far as they will go.

Delivery status = feet approx. 1/8" unscrewed.

Maximum height adjustment = 2" (51 mm)

Features

◀24"▶

German Engineering: Our superior products offer premium quality, cutting edge design and innovative features that fit your busy lifestyle. Exclusive components and materials, along with the latest production processes, ensure energy efficiency and performance for years to come.

Electronic Control

Precision Electronics: The electronic control system is situated at the top of the interior. The temperature can be set from 37°F to 68°F. The cabinet includes a lock for added protection of items stored.

LED

LED Lighting: The energy efficient LED ceiling light not only emits virtually no heat to cast a cool glow to give a pleasing ambient light inside the appliance as well as the room.

Storage shelves: This unit offers flexible storage options thanks to two glass shelves, a convenient split shelf for storing taller items, and a pull-out metal rack.

* Energy Cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per kWh.

** Noise output – according to EN 60704-3
